

S&S® Cycle, Inc.
PN 510-0031
2-22-11

Hardware Verification Notice

1/4-20 / 1/4-24 Thread Size

This kit contains both 1/4-20 and 1/4-24 hardware to cover multiple year groups, multiple manufacturers (stock, S&S or other mfg) variations of components or both. Be sure to verify which threads match your application before installing any screws, failure to do so could result in damaging your mating components by cross threading or thread stripping.
